

SOPHIA WHITSON

*Ceremony Speaker*

WEDDING • CELEBRATION OF LIFE • FUNERAL

## **Let us collect memories, not things!**

During life's special occasions we want to pause and take the time together to reflect on what truly matters, while taking special considerations into account to respect your individual values and needs during a ceremony.

As your ceremony speaker and wedding officiant it would be my pleasure to help you form your union for life in marriage or civil union.

I am also here to welcome and usher your newborn into this world, help you celebrate life's anniversaries, assist you in opening exhibitions in a creative way.

And as a funeral speaker I will be there for you when the time has come to say your final goodbyes to a loved one with dignity.

In these moments, words can continue to resonate like music.

I am delighted to help you build your special day through the melody of my voice and with my words to cast anchors into hearts and minds through a moving speech.

Please feel free to request a non-binding, obligation free, initial consultation from me and contact me directly at one of the channels below:
